Pretty simple question. Know of any relaxing songs? Something like Night Vision by Daft Punk would be nice, or Beethoven's Moonlight Sonata.

I prefer instrumental music for the most part, so yeah. Any good suggestions would be appreciated.

Those are the slowest songs that came to my mind. The last two aren't instrumentals.

This. I'm actually listening to Dark Side of the Moon (album, not a song) at the moment, and it's pretty laid-back.

Enya's Watermark is a simply beautiful song that should help you relax no matter what you're doing.
