Hello everyone,
I have put together a new forum aimed at the Sony consoles. I'm just trying to build up the user base and trying to find good moderators to help moderate the forums and advertise. Come on by and register everyone!

http://www.PlaystationStop.com/

PS: How does everyone like the skin?

Looks great, but... www.ps3forums.com has lot more people on it, and has existed a lot longer, so I don't really see the point in registering to another forum.
