I am talking about the little application Jon Wil made you have to replace for the original LE application.

I can't seem to find this, while i searched everywhere :s normally it was on renhelp.net, but its down and I can't find it either on game-maps.net..

I need this to export my maps as .MIX

Lies.

If it's not on Game-Maps.NET it's not on the internet!

Actually I have noticed a lot of people seem to struggle to find things on gamemaps.net, perhaps

your indexing and searching system could do with some changes to make it easier to find things? I myself have sometimes spent nearly 20 minutes trying to find things on there, even though I have a vague idea where they are to begin with.

I'm taking the piss...

I try to keep Game-Maps updated but am only one man.

What do you have trouble finding?

Last year, I tried to re-arrange the categories to make things easier to find.

I'm very open to suggestions and feedback.

I can't remember now, it was a while back, perhaps even before your reshuffle last year. I will have a think on it and get back to you if I come up with any useful suggestions.

BTW. I keep forgetting to mention this...

Something wrong with that....

Black-Intel didn't make SSAOW/SSGM... Black-Cell did...

Tell that to EWD, since he was the one who told me to change it from Cell to Intel.

Nothing in that category was made by Black-Cell afaik...

Only thing we (BlackIntel, without -) had to do with SSAOW was some port from an older scripts.dll version to a newer version afaik. Best change it to Black-Cell indeed. You can add a "ported by BlackIntel" comment for some of them perhaps, but frankly I don't even know which one(s) we ported...

Not to mention SSGM is kept in there despite it being SSAOW.

I do agree though, sometimes it's very difficult to find certain things there. Overall you do a great job with the site though.

Last year, I tired to re-arrage the categorys to make things easier to find.

I'm very open to suggetsions and feed back.

If possible, arrange and group the renegade-maps by author/designer. so its easy to seperate good maps from shit.

E.g.

- Maps by Aircraftkiller:

- xxx

- xxx

- Maps by Titan:

- xxx

- xxx

Yeah that is not going to happen, I have thought about it, but no, we would have too many categorys with one or two maps in.

ok, understood.

then make only for those level designers categories, who made a lot of good stuff?

well, e.g. it was for ME a lot of work too, to find all maps made by ACK.

so, either the user will have a lot of work or the hoster

I would like to have a directory full of really good maps, but i dont want to download 400 maps and check eath of them, if they are a POS or a good one.

to make the first step:

ACK maps:
