This modification is made by Scrin, I am just sending this for him because he is still banned.

"Ok im still alive, and since some retarded idiot banned all my 3 accounts from here, i cant post/view stuff , so i have asked Di3 about help with posting that video, and since Reborn (Spencer) and his damn mod C&C Reborn have tricked me, i'll have find the way how to fix damned 3.4.4 bugs!"

Video from Scrin

<http://www.youtube.com/watch?v=lovR8xK6JR4>

Please only discuss on what he made here because it is some great stuff he made.

Way too much crap in there, it just looks stupid. None of the textures fit with each other, the interior looks like a psychopath designed it, just randomly placing things anywhere and everywhere for the sake of cluttering it up.

I won't even comment on the advantage skins on all the weapon tracers and such, as I have made my opinion on those clear before.

I like how you ask "

Please only discuss on what he made here because it is some great stuff he made." but leave the sentence "Ok im still alive, and since some retarded idiot banned all my 3 accounts"...

I don't like what he made either, but I guess one cannot discuss taste anyway.

Agreed, Di3, you just shouldn't have posted his retarded message, it's baiting flames and it makes it look like you two are extreme butt buddies.

Too cluttered with too many things that don't exactly match or complement each other.

It just doesn't "look nice."

I don't like \*cheat name removed\* because it's just too damn cluttered, and the pink text is just too damn bright.

The only thing even remotely good about that video was the shaders, and that wasn't even his work. Although that level of shading will probably be implemented in Ren40k.

Karandras wrote on Sun, 22 February 2009 05:07The only thing even remotely good about that video was the shaders, and that wasn't even his work. Although that level of shading will probably be implemented in Ren40k.

I'm going to recommend \*against\* that at this time. Shader databases created for scripts 3.4.4 are \*not\* compatible with scripts 4.0 and there will \*not\* be a converter tool because of fundamental differences in the way shaders are handled.

Saberhawk wrote on Sat, 21 February 2009 20:20madrackz wrote on Sat, 21 February 2009 20:59How do i get that same Effect like he use?

Use sdbedit on sceneshaders.sdb and tweak the low pass and bloom filters.

Dont know how to do exactly and i dont understand anything lol

I won't even comment on the advantage skins on all the weapon tracers and such, as I have made my opinion on those clear before.

Pretty much hit the nail on the head.

Also, isn't the point of being banned that you're unable to use this forum to communicate with others?

No, not really. I thought they were shitty. The fact that he's just releasing ANOTHER video with NO release, AND it's shitty AND he's banned, is what pisses me off.

Odd, I don't recall wanting to die to recieve copies of the ugly crap he posted before he was banned... Perhaps you mistook disgust for envy? With very few exceptions, all of his work that I recall seeing has been bright colours and fancy widgets randomly slapped on things with no apparent attempt to create a cohesive and appealing look.

And, before you ask, no I cannot do better, as I suck at anything and everything artistic. For this reason I do not attempt to do so, because I know the results would be as ugly as most of the crap Scrin produces.

Scrin is a good artist but sometimes what he does is excessively retarded. Like this. This is fucking retarded.

People voiced their discontent less when he was around because it wasn't worth the effort due to the fact that he is a pretty stupid guy anyway. I think it still isn't, but whatever. Nobody really 'died' for any of his work other than his little clan of butt buddies and yourself that worship him as a deity.

---
