Sup guys, I just thought some of you would think this is pretty cool:

http://dragonflyteam.free.fr/pimpmyairsoft/

Create your own gun, etc. Click the guns listed in the boxes and double click an individual part to throw it in the box at the top. Drag and drop the parts around and make your own gun.

Then, naturally, save it and throw the pic up here.

Here's my sex machine:

Blarg. Looks a little choppy on the black background, but whatever.

Let's see some gunz, yo.
