Hi All,

XD-Gaming is now running a custom Renegade mod created by zunnie on our sniper server.

It's snipers only, You are a Regular Soldier with a Ramjet rifle. no refills, no character choices.

The maps are quite cool. As it's Single Player maps ONLY!! Which have been carefully and uniquely been modified by zunnie.

The Server is up and the name of the server is in this post's title.

IRC is located at [#XD-Sniper](http://irc.xd-gaming.com)

Hope to see you there!

Ramjets? Eww, would be much more fun with Sniper Rifles(it would require aiming).
