It's fake...heck, why should Jerry Springer be any real when the so-called news outlets lie right to your face?

I don't even watch TV except sports. That's the only real thing on nowadays or so it seems.

When I was in college I had a buddy who interned for that show (filmed in Chicago btw). The people and the stories are real. This thing is that before the show when they get there they are split up and seperated. They have a whole group of people on staff that all they do is go around talking shit, making crap up and pissing the "guest" off. Being how dumb these people are it is a pretty easy job. That is why when they come out and they film it they are always so pissed off and extra crazy.

What I always wanted to know is how they get these people to agree to come on in the first place. You know what ever the reason for the invite it isn't going to be good.

Also, is that show still going? Really?

I thought they just did re-runs of Jerry Springer anymore.

Actually Steve has his own show now. He basically just tells retards, "Hey, your fucking retarded".
