i know that this is very easy
but for those who cant skin
i make vehicle shells for every1
just send me your vehicle skins and then i make them

Hmmm can you try adding damage effects on it? Like holes etc?

No offence but at the moment it just looks like a copy over.

(It is better than that the yellow damaged med will appear true but add some damage effects)

If you're going to make a vehicle shell, I suggest you actually make it similar to the original in the way of the damage that's visible on the shell. Reaver is right with the holes and other damage. One way to do it is simply copy the original damage and 'cut' it out. I've made vehicle shells for some of my completely new reskins and the easiest thing to do is just that; using the original skin's damage. Hope that helps.

That is a lot better. Now add some more damage marks

I started making new vehicle wreckage but haven't worked on it much.

That is actually quite nice. This might be usefull stuff for TT which would make the drop vehicle shell more blanced. I doubt if they will but it would be nice.
