As you can see ... I've made new Tracer Bullets.

Gold for GDI

Red for NOD

Enjoy!

It looks very pretty but blocks your vision while using any of the guns and especially when in Orca/Apache...becomes very hard to aim at infantry due to the tracer blocking the enemy char.

But looks very pretty tho....

I think we should call this forum unknown-skins.com, or something very similar... This is in no way meant to pretty up the game.  
I say: Ban the MOFOS!
