There in your C:/westwood/renegade. directory.

Um but that has nothing to do with what your doing anyways.

From what i can seem to see from your reply's here, my advise to you , would be go read on renhelp's site, in some of those tut's will help you understand just what it is you need to learn,then that will help you better impliment what you need to do after you mod a map.

Cuz no way in hell am i gonna explain it all to you here lol.

Sorry & good luck, and happy modding man

I don't have scripts2.dll in my renegade folder

Thanks can you give me a link to the help site if you can

Well you would have to have scripts.dll in your renegade directory or your game would not work man lol.

but anyways here some links for you k.

Sure it's over here >>><http://www.renhelp.net/index.php?mod=Tutorials>

and scripts.dll.s(depending which version scripts you mod with are over here

>>>><http://ren.game-maps.net/?act=view&id=828>

Edit:

I just thought about if he had no new scripts then he wouldn't have scripts2 and all script installer auto rename your scripts.
