Hi all.

Do you type what you mean, even in Cap lock, (capitals) whilst in game to show your annoyance at the team.

Do you whilst typing accidentally slip into CAPITALS whilst in the throes of a good game (especially if you cant hear any bleeps)?

Would you fall out with a player and abuse them for this?

If you had the ability to use MOD rights, would you then abusive language in MIRC?

Why would you want to do that if you were in a position of respect?

Just forget for a minute, that its me, that they refer to. It may be you in the future. So many of us suffer at the hands of the few.

Ask yourself!! Why do the older, more experienced players that are MODS, disregard such a simple indiscretion as CAPS.

I know the reason why!!!! It's because they have a team player on their side.

IF YOU HAVE GOT THIS FAR, then try this!!!

[19:02:40] (puddle_splasher): so easy to shut someone up with mod abuse. Where in any of the rules does it say no CAPS??? It doesnt

[19:04:17] (ChewML): don't pm me anymore kthnx

[19:05:04] (puddle_splasher): why not be considerate to someone that works all week, gets one day a week to play, enjoys a beer and still plays here after 7 years?????

[19:05:32] (ChewML): coz you are fucking retarded and annoying.

[19:05:35] (puddle_splasher): you must have more to do with your time than be abusive for xcap locks

[19:05:43] (ChewML): it is not abuse

[19:06:22] (ChewML): anyways once again, don't pm me anymore

[19:06:29] (puddle_splasher): chew!!!! thats me, and for all the years that I have played, it seems that ONLY you and KILKIA worry about Caps,

Chewy,

It is your choice of word that lets you down.

We can all disagree, however we do not not require to resort to such hurtful phrases as "retard".

So many people out here in the "Internet World" as you call it do indeed have family that are impaired in many different way. Not least as you call the them, "retards".

I ask only that you show some young, consideration, for the position that you have as a MOD.

You do not have a position that you can so openly abuse, especially when it demonstrates your immaturity to deal with the real world, not least the virtual world that, sadly, so many believe that you are in. "Your Words".

Call players what ever names you wish. Just beware that some names are more acceptable than others.

In reality, is this how sad and pathetic that some players will go to, just to discredit someone?

I may not agree with all and probably never will but I do still play the game.

Chewy, you must decide as to WHAT, easy target you want (your words).

You can have me that stands up to you and openly challenges your written abuse, or, you can pick on someone weaker.

Either way, you must be shown up for what you really are.

IMHO you MOD abuse your position.

Welcome to Renegade. The game where mod abuse is actually built into the online experience.

But seriously, in my opinion, caps lock rules should only apply to when someone starts posting ONLY in caps. And it is painfully obvious and annoying.

I mean, if someone says something like "OMG!" or "INCOMING LEFT SIDE!" or "REPAIR THE DAMN STRUCTURE!" it should be left alone. But if there is someone who has posted 10 chat messages in a row, all having nothing to do with the game, in caps, then that's when a such a rule should be enforced.

I've said this in other threads as well: Rules are meant to protect people, not punish them. Blindly enforcing a rule without a real reason is a waste of time and authority.

Why the fuck should I take interest in every asshole's life just because they also use the internet?

This is also why I don't don't donate to "bums" on the sides of roads... How the fuck do I know they are not really making a fortune off of everyone else? I actually see them, and some look and proly are real, but I still don't care. It is not problem they lost everything, or they are just to fucking lazy to work.

I got my own problems IRL, do you care?

Do I expect you to care?

The fact that it's over the internet doesn't change the fact that it's another person.

Just because you're anonymous gives you the right to act like a 11 year old jerk?

Yelling at someone, for whatever reason, over an internet game, is the same as yelling at someone in person in a sport. The only slight difference is that you are speaking through a facade of anonymity.

And the fact that you are supposed to be taking on the mature role of enforcing rules on a server is even more of a reason against verbally attacking him like a child screaming over Xbox LIVE.

My point is, there were plenty of other easier alternatives you could have taken to make sure no side problems would have occurred. (side problems like the birth of this thread)

What the fuck is wrong with you people?

Have you not ever heard someone say fuck without yelling?

Has nobody ever just told you that you may be retarded without screaming it at you?

I did not type in CAPS once through out that conversation.

Why does everyone assume that if you tell someone they are fucking retarded on the internet, that you must be banging your head on your desk?

I simply think Puddle and some of you are retarded, I am not all pissed off as you guys seem to think.

You're just not getting the point.

People aren't just commenting on what you said to him, it's cos you said it despite being in a position of authority.

let me say that again, maybe you'll understand it this time: You are a moderator so shouldn't talk to people, at the place you moderate, like you're a complete prick.

I'll reiterate again: You should be talking to them maturely. In this case you should have just muted him, and when he asked why, tell him exactly why you did it, and if he continues to mither you...just ignore him.

Nobody cares that it's 'just' the internet. Do you act like this on the internet to make up for something in real life, or do you actually talk like that to people you meet?

Enough of the narrow-mindedness. Start seeing that this is about that you are a mod there yet talked to him like you've only just learnt how to swear.

If i do start playing ren again, i'd like to avoid it. After all, it has you on it's mod team.

You still didn't get it isn't just cos of what you said, it's cos you are a mod and you said it. As a moderator, someone in a position of authority, you shouldn't be saying things like that.

Although, if your attitude to the internet is that you can hurl abuse at people, just cos it's the internet, then it should be you who should GTFO the internet.

Wtf is this place?

Is it a game forum? Or is it some serious internet business organization support website?

You guys are sounding like a support group for retards or some shit.

Oh no, you think I am a tool, you don't think I should be on the internet.

If he would have listened the first 100 times, it would not have been like this.

If you guys knew wtf you were talking about... It is not just this one instance.

"Do you find others annoying and thought that other regulars would have thought the same"

You thought!!!

"Thoughts" do not enter the equation. However you acted on your own behalf.

MY MUM!! God bless her, she has passed. Your turn will come when someone dies. May my MUM be as godly as yours.

If you really want to know, Dad, Mum, Bro, Bros son (nephew).

Thats the immediate family.

Dad- heart attack

Mum- cancer

Bro- road crash (passenger)

Nephew- (bros- son - 15 died of leukemia) hmm a retard

THAT'S WHY I get a little aggrieved at words like CANCER "Kanker" "Retard"- especially when at 14 years old my nephew couldn't do anything for himself.

However at 44 myself, I ask not that anyone accepts my answers after all I have not lived.

No matter what age you are. Please chat nicely with each other.

Forgive indiscretions.

Sometimes, the anniversary of a memory makes one remember. Then it awakens the memories.

Do not be so judgmental, ever..

Ask WHY a person is behaving..as you see them.

Caps aside..... Im "shaking my head" trying to think what will make you understand bereavement. But you cant, not that you care, as you say, who cares, its another part of YOUR

world.

It happens to us all, that grand leveller of us when we die.

Death is not concerned with age. Who knows if it is your turn next?

Guys!! IMHO,

Caps whilst drunk or mis-spelt words when sober.

Are we the English Grammar Enforcers?

Hmmmm.

OMFG... just STFU.

This is not about your family. You are not gonna get off with some sympathy card.

My grandma and grandpa (who were more like my mom and dad) died, a good friend of mine killed himself, should I expect people to feel sorry for me on the internet?

Maybe if they are your online friends... I am not your e-buddy. I don't like you for as much as I know of you. That also does not have to do with this thread's real issue. THE ISSUE OF THIS THREAD WAS CAPS LOCK AND THE RULES. THE ANSWER IS PEOPLE DON'T LIKE SPAM IN CAPS SO YOU WILL BE MUTED. YOU HAVE HAD PLENTY OF WARNINGS Yea, I am an asshole on the internet, that is not what this thread is about.

People die, that is part of life (the real one, not this shit where we respawn). I well know that I will die someday. Learn to separate you online life from you real life.

Your "words of wisdom" have no place here.

I called you retarded, not your relatives.

I know that others were finding you annoying.

Bottom line, if you are being annoying I will mute you, I don't care who you are, not just Puddle.

All this 'its just the internet, get over it thing' yet you'll get annoyed on IRC and mute someone?

Isn't that a bit contradicting?

I did not mute him on IRC, after this I did put him on ignore for a bit. I muted him in the server because he was annoying other players.

No, I don't find a bit of that contradicting.

This thread IS about you being an asshole, I don't think he cares one bit about being muted. By the looks of everyone's replys, it worked too.

Just drop the case, it's obvious he isn't understanding anything being said to him.

Like talking to a brick wall..

I am sorry are we in the same thread here?

"Re: Is use of CAPITAL LETTERS in the rules."

I am an asshole, fuck off.

People close to you died, everyone knows someone that has died, that is irrelevant to this situation, as I did not say anything about anyone besides you.

The people who's opinion does matter have no problem with what was said there. They as a matter of fact also think Puddle should stfu and stop whining about a mute.

I fucking muted him, he comes to me with these first few lines

[19:02:40] (puddle_splasher): so easy to shut someone up with mod abuse. Where in any of the rules does it say no CAPS??? It doesnt

[19:03:24] (puddle_splasher): why not look for cheats?? Neither of the more mature mods have bothered about my mis, caps all day, why do you?

[19:05:04] (puddle_splasher): why not be considerate to someone that works all week, gets one day a week to play, enjoys a beer and still plays here after 7 years?????

[19:05:35] (puddle_splasher): you must have more to do with your time than be abusive for xcap locks

If you come to me with this shit after a simple mute, fuck off.

Muting is not abuse.

If he would have listened to my first response

[19:04:17] (ChewML): don't pm me anymore kthnx

Or came with a nicer opening line, then I would not have been such an asshole.

Extensive analysis of this situation shows that this guy is actually being pretty decent about it. You're just a flamboyantly angry asshole.
