Do you have a legal version of Renegade? As in: did you buy the game? If the answer is yes, which I doubt, then reinstall the game following the steps in the sticky. If the answer is no, then you will not get any support on this website as we do not condone Warez.

The game only costs 5-10 \$ anyway...

He could have recieved his copy from a friend, that is what happened to me. Although it was still a legal copy. But indeed the only reason why people use hamachi is because they cant get into the online lobby, because they have a pirated game.

Each user needs a valid license to play. Legally, you cannot both install and play the game, or at least not at the same time. That doesn't mean the serial is bound to an individual but it is bound to one active player.
