Beautiful... but unfortunately the reflective shaders would fill the void where my GMA chipset was with smoke.

The orcas are really nice, however a little too camouflaged to be fair .

Not to point out the obvious, but wouldn't it be more productive to simply show off once it's, you know, done?

If they didn't do regular updates people would soon grow tired of waiting and jump on another band-wagon.

People are just that fickle.

I think you guys are doing a great job though, btw.
