ok so after about 3 years of NO RENEGADE i finally reinstalled it and the FDS and now i cant figure out how to run the FDS and renegade! and is there any way to change my serial (with out reinstalling!) so that way i can use the XWIS tool i found (thx to forums) so i can change my passwords + delete old accounts?? thanks!

Edit: Also! can i use HAMACHI to LAN with my best friend?

To change serial: check the "serial changer" sticky in the general discussion subforum.

Yes, you can use hamachi.

For the FDS: first launch the client, then the FDS (there's other solutions as well).

Did you try running a non dedicated LAN game and get him to join that one? Seems more logical if you just want to have a 1v1.
