Yes my first Tutorial is up on Renhelp.net. It shows you how to Unwrap UVW a simple Pistol (includes a Pistol and Texture tutorial file). I dont think you will get troubles with this Tutorial, i gave my best to make it very simple, so check it out:

Renhelp.net Unwrap UVW Tutorial.

EDIT: Just noticed, the Tutorial file Links broke. I will post a Updatzed version with new Links later, but i think you dont even need the example files.
