Hi im kinda new but Ive searched through the forum and google and stuff.
Ive been having a problem with LAN, when i host maps they are gray on my friends comp and unselectable but Glacier flying + city USED to work, Ive got the normal things on renegade (+ enough mods to last a life time) no object and other cheating type stuff.
We've tryed on the other comp but no servers are showing up at all. hes got XP SP2 but Ive got vista. any help will be appreciated(Ive also reinstalled renegade)
