I have made a new interior again. This time for the Hand of Nod.

I know compared to my other interiors this might not be anything special. But I don't know what else I should add. Any suggestions are welcome

Video - <http://www.youtube.com/watch?v=ahtw-YrJQHY>

It works online and you can download for the test

(The second attachment replaces my advertising picture on the big screen with a nod logo)

Nice one di3, but i have 2 questions;

1; Why does the youtube discription say "A modification for the Nod Tiberium Refinery interior."

2; Why does the middle screen above the MCT says Di3HardNL + your website? Even though you made it, it isn't really relevant in my personal opinion.

I loved your strip, im using that now, but i don't think i will use this simply because i don't want too see another player's name when im in the hon, doing whatever.

Very nice job though, keep up the good work mate.

Thanks!

Oh my bad I always copy the text from a previous video I uploaded, otherwise I keep typing I'll change it now.

And maybe your right about it. I'll make some NOD texture that will replace the image with my name on it.

Excellent mate, that would be off the hook, and then i'd be using it for sure. By the way, you might wanna give me the name of the song real quack like, it's making me bounce

Hehe yep you are supposed to laugh on that

Anyways, I added a attachment to my first post. It is a differnt texture for the big screen. Would look like this then :

The song is Pendulum - Tarantula

Its an awesome tune

True, di3hard does great work. That is why I always try to give some constructive criticism.

it's ok, but all I'm interested in is the purchase terminal and the screen thing.. i like the textures i already have. is it possible you could make a version that would just replace those? because from what i've read in your previous releases you need all of it to work, if not, could you point out the models/textures i would need for those?

You could edit certain texture of his to suit you own style, or you could replace them with the ones
you got if thats possible.

That PCT looks better for the HON, except I would like to have some more textures around the outside border (where the westwood tiles are).

I am sure I had put all needed files in the .RAR. Otherwise you could also get them from my other interiors (they use the same texture name)

I might still add some stuff, like music and someone had a good idea for putting another small room in the back of the HON and add there a mini hand of nod

Greetings

EDIT:Can't find the right file in other interiors.

Thought I found it but it didn't work, thought it was NodPP_Metal4 lol
