Ive got a problem.

Everytime i start brenbot, everything works out fine except for this:
There is no communication between BRenbot and my fds.
I actually think it may be limited, seeing as the bot reports players going in and out of game, but that is the brunt of it.

<abvolcom-serverbot> BRenBot 1.52 reporting for duty! Type !help for a list of commands.
* Trompeten (marc.grein@hidden-16AA851D.adsl.alicedsl.de) has joined #abvolcom-admin
* Trompeten (marc.grein@hidden-16AA851D.adsl.alicedsl.de) has left #abvolcom-admin
<abvolcom-serverbot> Warning: The FDS has not responded to the last two status requests, it may have gone offline.
<~DrDanthrax99> !die NOW
* abvolcom-serverbot (abvolcom-s@hidden-E247353F.hsd1.mi.comcast.net) Quit (Client exited)
* abvolcom-serverbot (abvolcom-s@hidden-E247353F.hsd1.mi.comcast.net) has joined #abvolcom-admin
<abvolcom-serverbot> BRenBot 1.52 reporting for duty! Type !help for a list of commands.
<~DrDanthrax99> !fds msg tijno smells
<abvolcom-serverbot> Warning: The FDS has not responded to the last two status requests, it may have gone offline.
* DrDanthrax99 sets mode: +o abvolcom-serverbot
<~DrDanthrax99> !pi
<@abvolcom-serverbot> There are no players ingame at this time.
<@abvolcom-serverbot> Player DrDanthrax99 joined the game
<~DrDanthrax99> !auth drd
<@abvolcom-serverbot> Connection broken to client. 1
<@abvolcom-serverbot> Player DrDanthrax99 left the game
<@abvolcom-serverbot> Warning: The FDS has not responded to the last two status requests, it may have gone offline.

Reporting players going in/out of game etc comes from renlog. Your problem is incorrect remote admin settings, or using the same port numbers as another bot/fds running on the same machine as yours.

Read the readme file which explains how to setup the remote admin connection settings, it covers everything in there. If you are still having problems you should copy-paste the relevant sections of your config files (server.ini / brenbot.cfg) into a reply inside a spoiler tag, making sure to replace passwords and serials with *'s or similar before submitting the reply.
