I was wondering if anyone would be willing to make me some stank missiles skins. I only want it to be for the stank.

I would like it to have some cool looking smoke and not to block your view of what you are shooting. Just really do what you can. Because I don't really know how to explain what I want just that I want it .

Yeah that looks pretty cool.

Btw I am answering to what Lil Killa said. Sorry for not quoting you but I pressed the wrong button.

And I don't mind if it has to be with all vehicle rockets. But just make sure it doesn't block my view on any of the vehicles. Because on some missile skins Ive seen and played with you shoot and you don't really know what your going to hit because you cant tell where the missile went within all the shit that just came out of your vehicle or gun.
