Can you make/is it possible to have animated hud parts?

I'm trying to get a full beta HUD working. I'm sure you all know the beta hud from E3, that hud has an animated sonar. (animated radar screen)

So is it already possible or can anyone make such a function into shaders.dll code for the Head up display?

I can't say \*what\* we have planned yet, just that it'll be awesomeness.

They said this like a million times already. No one knows when it'll be released. It'll be done when it's done!
