I tend to hate the white lines on all the Nod vehicles, ended up cleaning them up on the stank and adding a few things; brightening some areas up (the random white dots are my stealth effect & not on the stank itself) and adding "dirt marks" in other places.

Thought somebody might like to use it

I think he wanted another 1 month ban. At least, that's how I interpreted it. These constant spam posts are really pissing me and the other moderators off. You're as bad as trooperm02: you constantly alternate constructive posts with random crap spam.

I love the Stealth Tank texture, probably one of the nicest I've seen really. Very cool.

And what Gozzy said, but like times a million from me.

Very nice stank skin. I tend to find the red a bit carpet looking but it will probably look different ingame.
