Hello guys!,

Does anybody have a savegame.sav file from the last level of renegade?

That means that it is possible to see all characters/vehicles/buildings etc in a special menu in the singleplayer...

the savegame files are stored in data/save folder

I really appreciate it if someone can post one here, becoz i need it for making a renegade modification.

Thanks!

It contains a trainer, they often (and quite correctly) show up as virus. If you do not trust the file, then use the other files there. But I am quite quite sure the trainer is safe to use.
