Here's a modification for the blood you see when people get hit by bullets. It changes blood into the healing sign that is like what you get in TF2, except you're not actually healing your enemy of course.

Extract the contents in the .zip file into the Data folder.

Remove e\_flesh1.w3d, e\_flesh2.w3d and t\_blood\_heal.dds to uninstall.

Here are some screenies:

Enjoy!

can you make this when you heal some1 with the repair gun

then i would use it

and nice job
