I have been trying to do a simple recolour on the Ion Cannon but with it being many files it's difficult, could someone point me to one that's already made(if anyone knows of one) or make one(many thanks if anyone does), like a limeish green(the lava) or a dark grass green.

Oh, I forgot about that one, I have it downloaded too(along with a bunch of other skins I just keep for the heck of it), I think that will do, /me slaps himself for forgetting about it.
