I was inspired by the cool light, stank, and arty skin. Now its not supposed to look the same, just some what similar.

I like the skin. Good usage of colors that match the apc's design.

Mayby you should downscale the logo on the turret. Let it look like a hatch or something. Also the

big top picture's edges dont blend in that well. For the rest it is a good skin.

Not bad! Personally I'm against the imagery on the top and back. But still, it's nice.

Maybe I finish mine soon?
