I got forced RG second game I played there some day, I think it was because I saw an stealth tank (driver was mod) with an orca.

As for me I play on Jelly Servers (Mappack and AOW1) and Matrix Snipe.
I also like to check out other servers from time to time.

It's cool how this forum claims to be a general renegade forum but not all communities can post...
Replacing e.x.o.d.u.s with faildus is soo smart and funny, not to say it's very mature too!

Good job!

E.x.o.d.u.s are mavericks, and the real agents of change in the Renegade community. For the past seven years, nerdstories has been out of touch with the community and seek to extend their control to Renegade Forums as part of their plot to eliminate competing servers. Together we can bring hope to Renegade.

I'm John McCain and I approve of the E.x.o.d.u.s Server and their thx4the.info domain.

I actually enjoyed playing in UNRules, but it was only because I used to play there with a close friend. The mods sucked ass - I got !forcerg-ed because I killed an engineer with a minigunner. It was straight forward: I ran up to him, fired at him until he died, got forced, came back a minute later with RenGuard.

These days I generally play as "Ethenal" at Exo.dus, Jelly, and St0rm.

Also: John McCain's post made me lol so fucking hard.

I knew I'd have to moderate this topic at some point.

If you want to moan about Unrules, take it to another thread.

As for the e.xodus <=> faildus thing, I don't have access to the word filter list.

Consider yourself lucky that you weren't running Renguard at the time. If the !forcerg you and you're already running it, they just ban.
