You mean like "aod" Art Of Defense  
good idea  
That would be tight and you can build like turrets and towers

Great idea. Dont want to spend time doing that tho. That can be done but for best product, you have to make your own scripts in C++.

i think that mode run on some maps at the St0rm Custom server.

Your GDI and must hold the base the nod "Bots" attack in different Wave's. So the team must work together or the map is lost.

You mean something like that?

Yes, st0rm does have a map where GDI holds off wave after wave of nod; each one getting harder. I haven't played it in a while, but I'm pretty sure it was called st0rm\_TOS. I'll update this with the correct name if wrong. Only thing bad about it is, epic fps kill for lower spec computers...
