Hey guys.

As some of you may know, I am the founder of a Renegade clan, called NE - the Nod Elites (<http://fobinator.suddenlaunch.com/>). On Sunday, July 19th we will be celebrating 6 years of NE. We're calling it the "NE-Versary 6" (after the word "anniversary"). So an idea came to us two NE-Versary's ago, and we said, why not invite our Renegade X Community for a game?

And we have been doing so for two years now, alongside the annual "ReneGames" on C&C Renegade's birthday. These games have kicked ass.

So that's what we're doing again. A public 64-player server, hosted by the Borgamers network ([http://borgamers.com/\[url\]](http://borgamers.com/[url])) will be set up for this event. All players are welcome to come and enjoy Renegade again, play with the Renegade X dev team, friends, etc. Enjoy the game we're here to remake!

We will also have a Teamspeak server set up for the event. That way, team players can communicate with each other, develop strategies, and help out. Even if you don't have a microphone, you're encouraged to download teamspeak in order to hear what the others are saying. Download it [here](#).

The purpose of using Teamspeak is to maximize teamplay and therefore push C&C Renegade's gameplay to its very limit. Teamplay will be key for this game, to achieve the highest potential of organized action. We will be using the Renegade X teamspeak server. The IP is 75.126.220.122:8769. Server information will be released this Friday, so visit this thread on Friday to get this vital information!

The game will take place on Sunday, July 19th at 3:00pm EST (Eastern Standard Time).

So how about it, C&C Community? The server will be waiting for you.

SERVER INFORMATION ADDED

Game Server IP: 75.126.220.122:4848

Server Name: [NE] Public Warzone

The server is NOT online as of right now (Friday, July 17). It will be online tomorrow (Saturday, July 18) for testing purposes.

To connect directly: If you have C&C Renegade, you can connect directly to the game server without the use of a server browser. Simply go to the Start Menu and hit "Run". Then, type this in when the time is right:

"C:\Westwood\Renegade\Game.exe" +connect 75.126.220.122:4848 +netplayername

YOURNAMEHERE

The NE-Versary 6 community game event will take place on Sunday, July 19th 2009 at 3:00pm EST (Eastern Standard Time, aka GMT -5). Be on the Renegade X Teamspeak at least 10 to 15 minutes before the game time (this is extremely important!)

Teamspeak IP: 75.126.220.122:8769

Big thanks to Borgamers for hosting this event!

Not alot of people joined.
This guy died in the Jelly community and they made a server of him and there were over 100 people. Would be fun if we had that much

If I recall we had about 35-40 people show up to the ReneGame and did some really cool rushes:

Here's a video of the last Community Game:

Nope, but we will have a guy on IRC who will manually switch the teams up as soon as a new map loads up.

Omg, thanks but not for the dummy part.

I just looked for a date and found "It will be online tomorrow (Saturday, July 18) for testing purposes."

Didnt noce the "for testing" and the real date..

Edit: Server owner, remove Renguard protection.

Alright, the game is today, so for anyone who will show up, try and be on Teamspeak at around 2:45pm EST (15 minutes before the game) for organization purposes.

I thought our GDI team on City was great, but yes we did lose.
