Hi. This question is already answered, im pretty sure of it. So sorry for that. Its quite simple though; I just want to replace some sounds for weapons and add skins for the weapons. Im talking about the skins found on <http://www.jelly-server.com> (if there are better websites you can always link them.)
Im just not sure if they are renguard compatible and how to do this in the first decade. The install folder is quite different. Its not just westwood/rengade/data.
Ive done this before but I cant add the skins probably anymore.
when I run the game the skins and sounds are not working.
Thanks.

Place them in this directory:

"C:\Program Files\EA Games\Command & Conquer The First Decade\Command & Conquer Renegade(tm)\Renegade\Data"

and i think sounds are renguard compatible
on jelly site there is a box that say if it is renguard compatible or not
better skin site
www.renegadeskins.tk ^^
