Please, remember: Nod/NOD is actually just an abbreviation for "Brotherhood of Nod"!

I always thought it was amusing how in most forums/chats/etc people can use words like "hax0r" "n00b" and other just plain typos like "loose" instead of "lose"...and all of this is accepted because everyone knows that we are all typing this stuff at 100wpm while we are listening to the radio and watching tv and who knows what else...yet sometimes some people will fixate on certain words and become the grammar police [ April 23, 2002: Message edited by: Blazer ]

The funny part of all this...if I was ACK...mission accomplished. I for one support him , but think about it. Good or bad...his name floats around the board the absolute MOST of anybody. I'd be feeling pretty F-ING popular...and pretty F-ING high and mighty right about now. If the whole NOD/Nod thing get's you all red faced and angry...go seek some F-ING COUNSELING.

Does a post saying:"Remember, it's Nod. Not NOD."really bother you that much? I mean just keep scrolling. I mean you could argue a point that he's correct (which he is if you give a \*\*\*\*) and he has a right to say it. You people spam worse than ack in these retarded posts.
