Building health = 'K' key

By default you cant see unit damage of any other players but your own.  
With a plugin or something you could make it possible but that has to be done server side

Is something wrong with the links i posted?

Where are you seeing Lt dmg?

Quote:Arty and stank are 90 if i remember.

Mrls is 39 dmg per shot vs vechs, and arty is 92, but stank is 90 to vechs, if i'm not mistaken.

Super-wrong. Secondary fire on the mammoth does much more damage than the primary, not 4/5 less.
