hello, i have a question who can make a screenshot with all standart (Original files) after installing from the folder "Data" in c&c Renegade game folder. Beacue i dont want reinstall Renegade... because i have added new maps in the Data folder and RenGuard show me that warning...

Warning: Model Texture (Skins) detected.

i wanna remove it from the folder manual and who can make / show me a screenshot with the normal data files.

thanks for all which help me.

greeting: Renamon, Germany, HH

PS: i can play the game normal single and multiplayer, but sometimes it broke up...

Just any skin you've downloaded.

Don't worry about it though, as hardly any servers run RG these days and i reckon there is no big servers that are 'pure'.

futura83 wrote on Sat, 01 August 2009 23:20 Texture files are the \*.dds files.  
This is the right answer. (re)Move all dds-files from your data directory.

hi all together, i found that reason (maybe) i have just downloaded all mappacks from "unrules" and if i have extracted the maps in the data folder i have seen some screenshots and map txt documents i have deleted just all about screenshots and text files... and now i have started RenGuard and it dont show that message anymore lol i found, reason and fixed it >\_> or not ?

hmmm i test how it will be to play online maybe some bugs will comes out...

Don't forget that renguard is very unstable and tens to randomly crash from time to time. There's very few people still using it nowadays.
