Okay i started making a renegade FDS Server and got it working then i downloaded BRenBot
MINIinstaller 1.52 With BIATCH Anti Cheat.
Now when i start my FDS up it says:
FATAL ERROR: Can not write to ./log/biatch/main.txt

I dont know what is wrong please help!

doesn't this topic belong in Win 32 FDS. just don't repost now
you could also read the sticky there

Yeah, apparently BIATCH can't create it's own log file so you have to do it manually.

this error usually states when u dont have enough space on the HD or it doesnt have the right permissions to write the file.
