Hey, feel free to move this to another forum if its not the right place, anyways here's the request:

Can anyone help me add chrome effect to all buildings in-game? like the PP, WF, Airstrip, REF and such? Ill be happy for just a few of them or one

Thanks in advance

what you mean with chrome effect??
something like my building exteriors
or just a shiny skin with mip maps reflection??

^done in RenX/3ds max.

I would do it but i only take requests from friends because i am too lazy to do it for others.

you import the original and make it transparent, right click > properties > see threw. Then import
your and scale it
