You shouldn't install renguard anymore, tbh. It's not of any use anymore. If you reinstall in a different dir, you don't even need to uninstall it for it to be gone .

But I really like the fast loading times and the vehicle limit fix along with the countdown voice for beacons

The Core Patches add those, not RenGuard.

So then how do I get the core patches and scripts to work together? Or the two without renguard?

Okay, I installed CP2 and scripts 344, everything runs but the scripts aren't doing anything, I have the 8 vehicle limit! >.<

But I have the fast load and beacon sounds. Whats wrong?

Um, the increased vehicle limit has to be set on the server, too...
