Hello all,

I've bought a new copy of the game to play again like 2 weeks ago, and since then I've been having a disconnection problem

Sometimes, my ping goes crazy, like 2000+, 4000+, 9999, then it says game pending, I get disconnected, and the most troublesome thing, I lose connection on both my computers for like 15 minutes, then it comes back alone

It only happens when playing Renegade, I don't see what could cause it, sometimes it happens after 5 minutes, sometimes I can play 1 hour without it happening, I don't have any internet issue else than this

Has somebody been in this situation, or know anything about it?

Thanks by advance for any help you can give =]

Thanks! I don't have a solution though, the router or box thingie is at my owner's house, next to mine, and I don't see what I could do about it =|
