So when i try to join n00bstories server, and its Hourglass map, my renegade just exit and there's no error message, i removed all the skins and stuff, but i dunno whats causing this (other servers/maps work)

And i have C&C_Hourglass.mix in the data folder

when i join, i get the welcome message and then it freeze and crash

and i didnt find any other hourglass maps, ill try host it

I tryed on another server, and it worked, seems to be the n00bstories

You could also try to post the crashdump.txt that's created upon this crash.

Are you using one of those radar HUDs where an overhead view of the map is displayed in the radar portion of the HUD?

If you use any mods, or scripts, then first remove those and retry. If it still doesn't work, reinstall following the sticky.

It's possible to be scripts, because if something's wrong with them, a lot of crashes occur
