I installed Scripts 3.4.4 and I cannot run ren. In dllload.txt is this error:

[bhs.dll] Failed to load, error 487. Invalid access to memory location

Any ideas?

Yep. Clean install + original patch + these scripts.

Hmm, how about using my bhs.dll?

```
File Attachments
1) bhs.dll, downloaded 247 times
```

Hmm structure of your bhs.dll is different. What is here changed?

But problem is same with your bhs.dll

Nothing, that should be the DLL from scripts 3.4.4!

I'm at a loss, I need someone who wrote BHS.dll or is involved...

Maybe you installed everything in the wrong order?

Look over this and see if it looks the same:

Problem solved. I removed some hotfixes in OS.

One of these files was wrong:

advapi32.dll

---

kernel32.dll
shlwapi.dll
user32.dll
ws2_32.dll

Which I dont know. I was too lazy restart OS 10x.
