Okay I am in a forgiving mood.

Are you people past your intolerance's yet?

You fail to understand me and my goals.

Are we past this yet?

I personally do not want to do this.

But I have such an OVERWHELMING RESPONSE to these, I have to post here.

Go's against my intuition but. I do this for the benefit of all REN players. and REN servers.

My goal has and always will be to share, and to enjoy, and to make the game fair and as enjoyable for others.

If you want to continue that tirade that is your choice.

I am only posting this for Die hard REN Players.

And by Overwhelming Responses.

As for the Indictment and conviction you wrought over a SS that i posted, that was not of me or of any server, I do not care. For it did nothing to affect me. in frat I have been unbanned by some, which actually I do not care either.

ANY WAY this IS FOR RENEGADE PLAYERS- I post this for THEM .

Power to the Player. Not the ADMIN or MOD and that is What St0rm IS about.

You're so going to get mocked...

What's so special about this video in the first place? I don't get it.

I moved this to the mod forum, as there is no actual release here.

The textures are not exactly to my taste, but I am positive many players will like them. I enjoy your sentiment.

Unless he doesn't release them of course. As for the skins, nice, but I like the vehicles more than buildinigs

See this and my post (the second post in the topic).

For the lazy: he posted SS containing a blatent indicator he was cheating as he was posting to show some skins he'd made. He rapidly got banned from most servers, except st0rm, apparently.

Pretty sure most active people in the mod sub forums know of this event. But I agree that it should be mentioned. OP post is rather laughable.

With mentions of DIE HARD RENEGADE PLAYERS, and OVERWHELMING RESPONSE. Queen, if you don't want to post your skins here then don't. Simple

Heh, I haven't been on the receiving end of his cheats so I don't really care  
If you want to release, I'll give an honest, unbiased opinion.

Wait... you cheat, then show us a screen shot of your cheating, then get mocked at by fellow forum goers, then say you forgive us?

I am past it, as I have other ways to vent instead of picking off mistakes, like I used too.

I guess, welcome back?

I have figured out HOW to hack recently (HURRAY BOREDOM!), though I never want to online, only for shits'n'giggles on a LAN (with no one else, mind you). So I guess you guys can go "OMG HAXZORZ BAN HIM PLOX", and watch as I am suddenly unable to join 2/3s of the server online. Good day, Gentlemen, as I have better things that I CAN do with my time, I just choose not to. Oh well, back to messing around with my photo editing program =/.
