I swear ther is a curse that hovers above me when I play, Either I lag like \*\*\*\* when I play OR i'm stuck with the cream of the crop retards and the server disabled team-switching(retarded) Perfect example: I was running around repairing EVERYTHING in my base asking for some friggin help because my team was the retard rambo type "I'm going to destroy their base no matter how many times I die!" So I was the only one repairing. Well they ended up assaulting us at 2 sides and either I let our TR go or our PP so I stayed and repaired the TR and the PP got wasted, to add insult to it the Idiots started flaming me saying I didn't repair and I was an idiot. After saying \*\*\*\* you 20 times and telling them to help next time I left. BTW I was ranked #2 just for repairing alone LOL!

Probally just an off day. Yesterday, I don't think I won a single game at all, and I played about 6 or 7 games the entire day. At least every time my team loss, I was in the top 3 players

It may be because idiots tend not to use vehicles as much and prefer to go it alone and get fried by a base defence (goodness knows i did it enough times in my mewbie days). Less vehicles are used, therefore less lag is produced, but gameplay goes down. It's a vicious cycle.
