I work as a team most of the time, and i have to put up with dumbass newbies who have a desire to crash their helicopters into buildings and to fly as high as they can over enemy bases so i break the 200 meter virical dash record. But from time to time i just have to get back to the basics of gaming, if my team is doing ok without me and im nod ill choose a blackhand, find myself a sniper, and stick c4 on his ass or his groin. Then i will hide in a corner and type some cheeky public message like "thats some major chaffing there" while the poor sniper explodes. I dunno why, but it never ceases to amuse me.
