This is real simple- aim for the head! Headshots kill in a matter of seconds. Once when I was an engie I squared off against a mobius and won by jumping around stopping, popping him in the head a few times and repeating that. Boy was he ****ed   Also about ACK- you guys have no lifes to sit here and flame him when he's 1. helping with grammer(don't know why) or 2. just trying to infuriate you guys because from some of these posts he did a splendid job! This is just a game. Jeez it isn't a game anymore if your ****ed or angry. if that happens, then quit and cool off because it isn't fun anymore.

Every1 should know that, if they dont, their absolute dum***es. If you do that though, and kill a n00b fast most of the stupid ones will ask, what hack have you got?theres a forum where a really stupid n00b accused someone of having a hack then next game saysmy hacks not working?just f*** the n00bs and if your tired of them crying like babies turn off your chat, thats what i do.
