what are you? why are you so robotic? you post the exact same topic on at least a dozen other messageboards on the web whenever you make one here or on [apathbeyond.com](#) (if you want proof, just run a google search with the subject line next time he makes a topic)

people think you're a bot

anyway, what people are more interested in is not your topic, but rather, your behavior

edit, yeah, check out this forum he's set up at <http://s1.zetaboards.com/strikesback5/index/>

theres like thousands of 1-post topics, all made by him, it's spam

The moderators feel you are a bot for the reasons that Ryan3K just posted.

Try replying to some forum posts, rather than always making new topics, that will help us to see you aren't.

We still can't figure out if he's a friggin' bot. We've banned him at [apathbeyond.com](#) for 30 days and put on moderator approval forever after that.

He also posted this at another board: <http://forums.digitalpoint.com/showthread.php?t=1483418>

What was said above. One more of your robotic posts and you'll be banned.

You might as well ban him now. Do you really want this kind of sociopath here?
I mean, okay yeah we have some odd ones here on these forums, but this guy... forget classes, he is in his own league of messed up.
It's not as if he's going to stop these duplicate posts.

Mighty BOB! wrote on Sat, 05 September 2009 07:47...Do you really want this kind of sociopath here...

What do you have against sociopaths?

Anyway, on topic: I don't think he is a bot, but rather just has a compulsive need to reply equally to every forum he is apart of.

Wow I just read that thread on APB. I think he might get mental health benefit from being banned from all forums possible tbh

This guy is most probally psychotic and suffers from schyzofrania (TYPOS RULE).

However the brother of my m8 suffers from this too since a few weeks ago.
He had a burnout of working, now he is in the hospital.
Recently he told me that he wanted to set up a non provit company.

From what i hear, this guy seems to have the same symptons.
