I started Remaking C&C_Canyon a while back for a mod and never finished it.

Whats going to be in it

New Building Exteriors

Tiberium Gas

Grass and Bushes

Tiberium Crystals

A New Vis System

Maybe a New lighting System

New Map Texture

Added A lot of Alpha Blending

Only about 50% Done with the model so don't expect it any time soon. Also does anyone have any suggestions.

Looks good so far. I don't think I have any suggestions atm.
