The logo for Command & Conquer: Tiberian Sun - Hand of Nod. It features the words "COMMAND & CONQUER" in a small, gold, sans-serif font at the top. Below this, "TIBERIAN SUN" is written in a large, bold, orange-gold font with a metallic, 3D appearance. At the bottom, "HAND OF NOD" is written in a similar orange-gold font, but with a more stylized, blocky look. The entire logo is set against a dark, textured background that resembles a metallic surface with some lighting effects.

you need download from Di3hardNL file not from them cos they are reskin.

frist install this file <http://www.renegadeforums.com/index.php?t=msg&th=33341&start=0&rid=24860>

then install reskin as above it would be working fully

I am having the same problem. I downloaded Di3hardNL's pack and installed it first. Then installed Dreganius' pack. It did not resolve the issue.

I downloaded Di3HardNL's Airstrip first and thats where the original texture for that came from, I think. Lemme have a look through my 6.05 GB (6,503,490,764 bytes) Data folder and I'll come back with the file.

I haven't tested it for myself, but this DL should be deleted until fixed in my opinion...

I think this only works when you are the host. I tried to do this in a public server and was unable to. However, I was able to do it when hosting.
