Ok I had been working on this skin some time ago, fixing some bugs and other stuff.
The first hud with the purple radar was my first hud I made
The other three I made today, when I was fixing the first hud and planning to release the whole pack.
I made the textboxes after the first hud, and I still love them

I hope you people will like this hud just as much as I do.
Enjoy

Are these 3.4.4 huds, or just hud_main.dds?

I like them all either way   but I can't use any if they're 3.4.4

only hud_main.dds and hud_6x4_messages.dds

they do not require 3.4.4 as far as i know

Kimb is right, they do not require scripts 3.4.4 or a modified hud.ini to work.
