Step 1:

open up console and type "exi tiberium_gas_enable"

WARNING:The game crashes often when you do that!

Do it 5 times, if it doesn't crash then you can stop.

Step 2:

Go here <http://renegadehelp.net/index.php?act=tutorial&id=8031> and do what it says for the gas or crystals instead of the lights.

Step 3:

Don't do what step 1 says
