Not really , Below 160 is short. Average guy in Europe is like 170-178 probably. Not sure really

now about statistics.

At least 180 CM.

I've heard that people are slightly taller in the morning than in the evenings.

Small feet for your height is a blessing...you might not fit into most cars, but at least your feet will fit into every shoe model lol.

How do you think 170 is short? I'm 178 and consider myself tall (and everyone says I'm tall.)

I hate being tall. I would much rather be 4' something.

Whoops, I math'd wrong. Anyways, that's still medium height, although it depends where you are, too. But for most US standards, that's fine.

You've failed to realize that I said I want to be 4' something. 5' or 6', it's still taller than 4'.

To compensate, in games, whenever I'm given the chance to create a custom character (RPGs mainly) I always make them short.
