Hey all

I am looking to download the first official Renegade trailer.

This is what I need:
<http://www.youtube.com/watch?v=OW0be4o9jbs>

But I need a non-YouTube version with good quality. This is to get some reference for one of the characters shown.

I looked thru some of the top C&C site but couldn't find a download. If possible, can anyone help me out in finding this video for download? much thx!

That doesn't improve quality.

You should find the Renegade trailers here:
<http://ftp.games.skynet.be/pub/ftp.westwood.com/renegade/previews/video/>

The whole Renegade directory:

<http://ftp.games.skynet.be/pub/ftp.westwood.com/renegade/>

It's a copy (or something like this) of the ol westwood FTP.

Thank you very much EWD and DeathLink for those great links! I got some really good quality closeups of the beta GDI soldier.

The video from the WW FTP shows the Logan commando dude with an awesome looking pistol fighting the beta Nod soldiers!

Pretty cool. Is it me or the graphics looked better on the beta video than it did on the Final version lol.

loling-a-bit,sry You believe this was the Renegade engine?

The graphics look better because it is CGI-Trailer which was made with professional renderer and NOT with Renegades engine.

Nice, I never seen that trailer before, in fact, I never seen any Renegade Trailers before the game came out.

This is a different trailer, same footage though and a bit longer.

The first time I ever saw this was on C&C Yuri's Revenge.

So you should be able to extract it from Yuri's Revenge CD using 1 of the XCC tools.
