I play it. We had ~40 players ingame yesterday. RenX Slaughterhouse #1.

Join it sometime if you want, press F10 in the mod and type:

open 85.25.143.169:7070 or select the server using the serverbrowser, but the serverbrowser is busted at the moment so if you

want to join you have to start the game in offline mode and then do F10 open 85.25.143.169:7070
